

PROMOTOR "L"

Nutritional imbalances,
low yields, stress, moulting,
gestation, etc.

Vitamin complex + aminoacids
(complete biostimulant)

Solution
(Drinking water)

COMPOSITION:

Vitamin A.....	10,000,000 IU
Vitamin D ₃	2,000,000 IU
Menadione sodium bisulphite (Vit. K ₃)	500 mg
Nicotinamide.....	16,250 g
D-Panthenol.....	7,500 g
Thiamine HCl (Vit. B ₁)	1,750 g
Riboflavine 5 phosphate Sodium (Vit. B ₂)	2,500 g
Pyridoxine HCl (Vit. B ₆)	1,125 g
Vitamin B ₁₂	1,250 mcg
Sodium pangamate (Vit. B ₁₅)	0,500 mg
Biotin	1,000 mcg
Inositol	2,500 g
Alanine, 11,5 g; Arginine, 6,1 g; Aspartic acid, 9,5 g; Cystine, 2,1 g; Glutamic acid, 21,5 g; Glycine, 9,6 g; Histidine, 4,7 g; Hydroxyproline, traces; Isoleucine, 6 g; Leucine, 12,5 g; Lysine, 9,5 g; Methionine, 2,2 g; Phenylalanine, 5,5 g; Proline, 9,5 g; Serine, 7 g; Threonine, 5 g; Tryptophan, 2 g; Tyrosine, 5,3 g; Valine, 6,2 g; Enzymes, traces; Liquid vehicle, solubilizing and stabilizing agents q.s., 1,000 ml.	

INDICATIONS:

In nutritive imbalances deficiencies. During stress.

During rabbit and poultry molting. To increase laying, fertility and incubability of poultry and viability in chicks. When livestock is undernourished and convalescing. During gestation. During lactation periods.

To improve the yield and conversion index of livestock. In intensive reproduction cycles.

DOSAGE AND ADMINISTRATION:

Poultry: 1 ml for 1 litre of drinking water during 5 days.

Rabbits: 2 ml for 1 litre of drinking water during 7 days.

Large livestock: 1-2 ml for 10 kg bodyweight for day, during 4 to 5 days, or 6 ml for 1 litre of drinking water. Renew the medicated water daily.

WITHDRAWAL PERIOD: not required.

PROMOTOR L is formulated along the lines of Promotor 43. The main difference being that PROMOTOR "L" comes in a liquid form to ease administration and overcome problems that could possibly be encountered with Promotor 43 in automatic drinking systems.

The vitamins in PROMOTOR "L" are in their soluble form, the amino acids also being soluble in the "L" chemical form and almost totally free. This gives the product the ability to be quickly absorbed and therefore have more rapid effects.

PROMOTOR "L" can be considered a complete biostimulant.

Reg. No. 9.366
